Team Prize

This year each target was considered a team. All combinations of scores from each target were compared to the current year (2016). The team with the closest total wins.

- Targets 4 and 6 both had a total to 2018.
- Target 5 had a total of 2015 so were declared the winning team.

Thanks to Martyn Mangan for automating the calculations for this award. Without automation the calculations couldn't be done in time for awarding on the day.
